

# What is Total Security Management (TSM)?

*“The challenge of our time is not simply to change, but to leave nothing to chance. The principles of our security solutions form the foundation for your corporation to strengthen its ability to identify, assess, respond to, and communicate all risks.”*

Ridge Global's **TSM** is:

- ✓ **Optimizer** for Risk Management
- ✓ **Management System** for Security and Resiliency
- ✓ Direct Link Between **Quality & Risk Management**

## TSM Software Modules

- Document Control**
- Project Management**
- Action Item Tracking**
- Form Builder**
- Audits**
- Notifications**
- Surveys**
- Dashboards**

# What is Different About TSM?

## Traditional Approach

## Ridge Global Approach

- Security considered an expense without an associated return

- Security becomes an *investment* with a *measurable return*

- Focus on compliance

- Focus *beyond compliance* to create value

- Security challenges addressed with single point solutions

- *Systematic process* designed for continual, incremental improvement

- Reactive and event-driven

- Proactive approach focused on risk *mitigation* and *resilience*

# TSM Dashboards Manage Risk
